etc, at prices which cannot fail to please you. We handle nothing but the best goods and the prices are right too.

HARDWARE.

A complete line, We can supply the carpenter and builder or any cort of mechanic with

VALENTINE'S Ready PAINTS.

If you purpose painting in the near future we take the liberty of suggesting the advisability of your using High Grade Paint, made of absolutely pure Linseed. On carefully selected and the best pigments that the markets of the world afford. Such an article is Valentine's Ready Mayed Paint. In addition to being made of the very best material carefully and uniformly ground tack gallon can contains a full gallon of the United States Standard.

It will cost you the same for labor whether you use a good and high will cost you the same for labor whether you use a good and high priced puint or a prior and cheap paint, and you cannot get a good article unless you pay a good price for it. If you use a cheap paint your house will disclose the fact in a very few months and will soon require repainting. If you use the best print you can buy you will secure durability and perfect satisfaction. As labor is the most important item in painting the paint that will wear the longest is certainly the paint that you require and we need not remind you that the paint that will give perfect satisfaction and the longest possible wear will prove cheapest in the and.

the end

The rame of Valentine & Company which is associated only with the manifecture of High Grace Varnishes Colors and Paints, is sufficient guarantee that our Ready Vived Paints wil finfill every claim that we make for them. On a new surface primed or an old one properly treated one gallon of Valentine s Liquid House Paint will cover 300 square feet of surface two coate. It must be borne in mind, of course, that a very porous or rough surface will require more paint than a bard and smoot surface will require more paint than a bard and smoot surface.

The following are cur agents. I. S. ANNAN, Emmitsburg, Md. E. P. MILLER, Abbottstown, Pt., and BASE-HOAR & MEHRING, Littlestown, Pt.

Buranen, Leyte Island, P I

FROM THE PHILIPPINES

The comfort and ease of our trans of man can accomplish But we hav passed through several stages of transition rom that lofty point The "Thomes" and her seasickness and worsly vaccinated arms, Manila, her swamps and poetry, Lacoloban, where one of our party said we were eighty milite from nowhere, in a rat trap at Dagami, and our purney four Lanaben to Buranen form successive steps in our transition. We have spoken of ocnteresting experiences in the Thomas," and we have told you some of Mamia with her aged walls and tropical gardens and life, but of our Leyte experience you had been told little

When we received our appointments our july collegian came running out of the offile crying, "Hi! They have given me the best place of all likey have made ne king of a little island schowhere, God knows where, for I shall have an island ll to myself, not another white man here" All of us had ourselves k ugs in our pueblos, for men dolf their bats, children fold their arms, and bowing, salute us with a 'buenos dias smores and the officers of our town envy our learning and clothing. While we have a somewhat kingly position, it may be of But before von can appreciate a drive through our country I must first tell you

of the caraboa. This is the beast of burden

n the Impines His celight is a mudcans know him as the water bullate. Inc natives work them hard, but they are very patient During the dry season, however, were is a hout to lise of durance. For it is said if kept out of water too long be will stop him. This is a wet land and a land of poor roads. The water buffulo nke all creatures is adapted to his native land lie cannot get too much water He also knows how to climb the casy covered mean tain trails. After one beart has traveled a path all others following their foot a little to the right or left of the o'd print, but seldem in front or behind In this way ditch after duch is formed across the path so that the trail resembles eomew_nat a flight of steps — On tie brigt naily poor roads the drivers allow their caratose to follow their metinet, in this way, at many places, duch at ir ouch, a terrating with ridge after fidge, is formed across the road As Guver and I kere being bumped over and chucked tuto tlicse ridges and ditches by our car riage we wondered at and complained of be indolence of the native in not leveling things when he removed to hold or train way cressing, for we had not then time to We landed from our little sog boat "The Abert" at Tananan, we were fed

ov the Presidente of the town - So n

with a native guide we set out in a cariege, with our baggage in an army wagon

following us, to learn of libition and

transportation. The day was cool and clear, and notwitheta iding the humps we

had a pleasant drive to Dagami. Here we

found an American school teacher, a lady. alone with but one off or whit bore n in the town. This person was the lospitul orisman. The town is garnsored by a detachment of Filipino couls serving to the American army. To Dagum ture were four of us in the pity lor with as were two men will were to reman at Dagami. Here we not a rivil reception I a Presidente of this place lad prepared rooms in the Tribunai, and and made provisions for bourding two le was soon ready with the support for four That night buver and I stert on our army core. The others slept in the bud prepared by the President. The next day we found the mittary to a phone broken, so we cond not get orde a for a wagon and scout to take us to our fown It set in runing. Day or day [assed ach day more run and ware road Soon the Padre said it would be imit est ble to get to Baraten We could get no board in town except that it e Pres der te was farmishing us to to acd to our pleasure the Presidentals attitude to us became less and less that of a terest. It was then that I gut down and wrote to

Weldon that I was in a rat map I had

got our scout and wagon

was drawn by two harl worked minles Our baggage nearly filled the wagen, so we had just enough space so stand. We could scarcely walk by the side of the wigon for it was raining heavily and the mud was deep Out of Dagami about two miles we struck a caraboa road. Then it was bonen over a brenker and splash into a ditch for a distance of what seemed to be a mile. A little way beyond this we broke a trace in trying to pail into a bridge With time, the aid of a bolo, a native fool and weapon, and the heap of all hands present we got throngs, the bridge Our next trouble was a log across the way The fore wheels got over this but with a ca chuck they went down into mud and water over the hub. Here was serious difficulty. A native farmer hap pened to pass by, our scout who was an armed native soldier used the power represented by his gan to good advantage, for he soon had the man down in the mid digging with his bolo, a way for us out of the mud fine process was about ac slow as digging an eighteen-uch pipt ditch seemed to make little progress while time and rain were making great headway We tagged on and on through the mud It was getting dusk when the little soldier ecoui remarked "poco tiempo e vamoses no mae" (a little time and we go in no more) He knew that twilight here is very short and that we could not travel these roads in dirkness. It was very neur dark when we saw lights and the scout by a band of bale, hearty and friendly soldiers. We made ourselves known as two 'drowned' echool teachers They were all glad to see us The cook was a lit-

We Wish to One and All

HAPPY NEW YEAR.

NURSERIES INSPECTED, Enos B. Engle, of Waynesboro, has juscompleted an inspection of the nurseries of Pennsylvania under the direction of the State Agricultural Department. He says that all the leading nurserymen in the State are putting up fumigating jurious insects on their nursery stock.

The fumigating of nursery stock be fore it is disposed of is made compulsor. in Verginia and Maryland, and Mr. Engle believes a similar law will soon be enacted by every state in the Union. Spraying with whale oil soap and kero sene emulsion is still done by the owners of small nurseries in Pennsylvania who cannot afford the expense of installing fumigating plants.

Mr. Engle says the soil of some locali ties in Adams county is specially adapted for the growth of Imperial and Ber Davis varieties, the most reliable winter apples grown in Pennsylvania.

LOCAL AND GENERAL.

C. J. Spaugler and family, of Strabar township, will remove to Harrisburg in the spring, where Mr. Spangler will assis his nephew, H. W. Wolf, in the baking George Stover, of Hamiltonban town-

ship, was lodged in jail yesterday by constable Sanders, charged with stealing chickens of R. A. Marshall, at Fairfield. Luther H. Leiter, of Franklin county, last week, slaughtered his prize hog which weighed 955 pounds. This is believed to be the heaviest hog killed in that

Hagerstown dairymen have entered an agreement to raise the price of milk and cream. They have been forced to this, they say, by the advanced price of feed. A prominent dairymau said he counted up the cost of feed against his sales for on day and he had 36 cents in the clear. Dairymen are paying \$24 a ton for bran and 85 cents per barrel for corn and for other feed at proportionate prices.

F E Hollar, the present incumben has been re-nominated postmaster of Ship pensburg, and, of course, will be reappointed, having the support of Quay, Penros

The eight head of cattle which strayed away from the farm of W. G. Leas in Hamilton township recently, have been found. A stock company is being organized a

Emmitaburg for the purpose of developing the supposed vein of coal recently discover ed near that place. Messre. F. A. Weity, J. Stewart Annan and G. Mead Patterso bave the matter in charge.

Sometime during last Wednesday night thieves gained an entrance into the freight depot of the Western Maryland R. R. at New Oxlard, by breaking the lock on one of the side doors, and carried therefrom a box of oranges, box of baking powder some chocolate, tobacco, &c.

Among the Masonic grand chaplains re cently appointed is Charles M. Stock, D. D. of Hanover, and the district deputy grand master for district No. 4, composed of the counties of York and Adams, is George II. Shirk, of Hanover.

MARRIAGE. Hoffman-Hartman.

One of the pleasant events of Christman day in the quiet village of Arendtville, was the marriage of Mies Lydia J. Hartman, daughter of Edward Hartman, and George E. Hoffman, the popular clerk in the store of his brother in law, C. H. Klepper.

The event was celebrated at high noon in Trinity Lutheran church, before a large audience, by their pastor, Rev. D. T. Koser. Harry Thomas, Revolds Criswell, Ira Orner and Dr. Curtis Sheety acted as ushers, bride was attended by Mrs. Margaret Criswell, each carrying a beautiful bunch of roses, and the groom by Prof. Irwin Taylor, Miss Elizabeth Sheely presided at the organ.

After the ceremonies in the church, they were met by a large number of invited | The Farmers' Education, ... guests at the bride's home where a bountiful repast was served. The bridal presents were many and val-

unble, expressive of the high esteem in which these young people are held in the community.

COURT BUSINESS.

Authority granted J. J. Redding, guardian of Harry and Jennie Redding, to in vert funds at 5 per cent. Annie C. Miller, administratrix of Robert C. Mitter, deceased, discharged.

Samuel D. Ridinger appointed guardian of David P. Ridinger. Rule for paying of balance in hands of

W. C. Scott, trustee for a fund of \$1,000, for use of Margaret Seiss, made absolute.

An alarm of fire was someled last Saturday afternoon shortly after three o'clock to which the Fire Company answered promptly, but their services were not seeded. The fire started in the home of Edgar S. Faber on Chambersburg street, at a Christmas tree on the second floo front. A gas jet swung against the tree and its decorations, which offered good food for the flames. Carpenters at work on the house of Hon. W. H. Tipton, two doors away, extinguished the flames with a bucket or two of water, but only after about \$150 damages; fully insured.

The Shirt Factory Busy. The Shirt Factory is so rushed with orders that it has become neccessary to work at night, and the full force is at work every other evening. This speaks well for the management of this industry. It is a shame, however, that enough employee promptly-are not willing to seek employment at this work, which pays unusally good wages. We were recently shown the pay roll, according to which number of the hands are earning as much as \$9.00 a week, which is about the maximun; \$7.00 and \$8.00 is not uncommon Wages like these are not to be despised

The trustees of estate of Catharine A Cashman, deceased, last Saturday sold a property on Stratton street to Mrs. Philip Holiman, for \$1105, and one on West Middle street to Thad. Warren for \$465.

Sheriff Morrison last Saturday sold a property of John McKonley, at York Springs, to Christian W. Kehr, of Hano ver, for \$860, and property of E. L. Kanffman, Hamilton township, for \$145 to W. G. Leas, of East Berlin,

GREETING:

We desire to extend to our customers, on this the closing day of the year, the good wishes of the season and thanks for your favors, your patronage and good will during the year just past. The evidence of the people's confidence, that makes it possible to increase our business year after year, gives us great pleasure. It is worth more than money to us to be understood in our position of trying to better this store every year, and where-ever it fulls in any particular we want to know it—and we! promise to remedy it for the future.

We again thank you for your increased support, and it shall be our continued nurvose to do all our experience teaches us, to better this store day by day, so as to make it a pride to our customers as well as a convenience and profit to

FARMERS' INSTITUTES. THEY ARE HELPFUL AND SHOULD BE LARGELY ATTENDED .- THE SOCIAL

FEATURE. During the coming three months many

farmers' institute, and other like organ; zations are scheduled for the farming These institutes are really schools of

experience. Here good farmers, stockraisers, dairymen and horticulturists meet to discuss the problems which have come up in their work during the past year. Here the many little difference of opinion are brought out, and out of gained. Programs have been issued to meet the wishes and requirements of different localities. And here is where the wisdom of a good superintendent is valuable. There are some things to be learned from the work of farmers' institutes held during the past two years. In some instances the program of discuss ions and papers were not in perfect keep ing with the work usually carried on by farmers located in that particular locality, hence the value of the discussions were mainly lost. It is the work of th superintendent to see that the papers to be read at each respective institute shall be mainly on those topics which shall be of timely and particular interest to those who will likely attend the institute, and that the papers have especial bearing upon their work. Then again, the entertainment features of these institutes should not be overlooked. It is a very dry program indeed where there is nothing but papers and discussions. A social feature is not by any means time lost; in fact it brings farm ers and their families in closer touch with each other and draws out the very best that is in them. The discussions, and especially those

that refer to cultural topics, to methods employed in growing crops, and in rais ing and feeding livestock, should b given the widest circulation. FOR BETTER FARMING.

The time has come when it is neces

sary to improve in our methods of farm ing. The slipshod, haphazard way will no longer meet requirements. In the earlier days when land was cheap and new and nearly all seasons were productive, and the virgin soil responding without apparent effort to the most careless methods employed, there seemed to be no need of striving to obtain the results that must of necessity be our aim at the present time. The time has gone by when a man can purchase a tract of land and get a reasonable per cent. profit on his investment, or when one can longer employ those old methods with any de gree of assurance. Not more farming but better farming

must prevall under the circumstances. It has been said that he who causes two blades of grass to grow where but one grew before is a public benefactor. The same idea must be carried farther-to the yield of grains, stock and all that pertains to the farm. The average farmer wants to cover to

much ground. And try as he will he cannot obtain the best results from his. operations until he strives as faithfully to see how much one acre will produce as he did to see how many acres he could plant and tend. The pastures must be smaller and supplemented with soiling crops. The meadow must be less in extent and the corn and feed cut in barn or yard. In this way about the same in money values can be obtained from an eighty-acre farm as from 160 acres farmed in the old way. Of course the excuse will be made that we are putting too much labor on a small place, but i the labor on eighty acres does not exceed that on the 160 and the results are the same, why own or rent the other eighty? Oranges, Grapes, Nuts, Figs, Dates, The "Outlook" for January.

THE OUTLOOK is a weekly newspape and monthly magazine in one and unde articles, two stories (one by Sarah Orne Jewett), a carefully written history of the week's doings and many book review There are full-page portraits of new poliical figures of prominence, articles of anecdotal biography, a most entertaining instalment of Edward Everett Hale Memories of a Hundred Years," much else of permanent value.

TEACHER-"James, you may tell wher the Declaration of Independence was sign James - "Please, Ma'am, at the bottom." -Indianapolis News.

Mrs. Chimsonbeak—"I see in the paper that a woman, in looking after another woman to see what she had on, fell out o the window." Mr. Chimsonseak-"Well, that only

goes to show that some women in trying to follow the styles can go too far."-Youkers Statesman. "My friend," exclaimed the eloquent

minister, "were the average man to turn and look himself squarely in the eyes, and ask himself what he really needed most, what would be the first reply suggested to his mind?" "A rubber neck!" shouted the preco-

cious urchin in the rear of the room. -- Tit-

SCROFULA HEREDITARY

Medical Science Paying Much Attention to this Scourge.

Serofula comes in the blood. You may have inherited it from your parents. You have no right to transmit it to your children. There is an absolute cure for it—VAGER'S SARSA-PARILLA WITH CELERY. We wish it were possible to say this so strongly that every human being could realize the tremendous importance of it, for almost every individual last his latent poison in his veins. Its alarming fatality is not realized, because consumption and other discusses are reported as the causes of death, many of which are the direct result of scrolula.

many of which are the direct result of scrofula.

YAGER'S SARSAPARILLA WITH CELLERY is a positive cure for scrofula, scrofulous sores, and all scrofulous diseases. It purifies, euriches and vitalizes the blood. It expels the poison. It puts each and every part of the body in perfect working condition, and effects its cure by perfectly pure and harmless drugs.

If you have the slightest tendency to scrofula, get a bottle of YAGER'S SARSAPARILLA and expel the poison from your system at once. The cost is slight—any druggist will supply you with a good sized bottle for so cts. Take no substitute. There is nothing that takes the place of YAGER'S SARSAPARILLA. Made by Gilbert Bros. & Co., Baltimore, Md.

NEWSPAPER HACHIVE®

ALMOST CRAZY! SORES AND Wrought-Up Nerves Quickly Helped by Dr. Greene's Nervura.

ULCERS. Sores and Ulcers never become chronic unless the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sore, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system all morbid. A CONSTANT DRAIM all morbid. A CONSTANT DRAIM effetematter. UPON THE SYSTEM. When this has been accompilished the dis-

all morbid, UPON THE SYSTEM.

When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. I. B. Tabert, Lock Box 25, Winona, Misself and the sort of the padre and his lood gusting to an American to see him sufficiently and the padre and his lood good company twice a day. The most home-like meals are our suppers, for there we have good American food and American distance and it made a complete cure. I have been a perfectly well mane ver since."

The soldiers' mess. We have in this way excellent accommodations for boarding. The padre is quite a subject for study. You have never seen a more fiery-red face. The chocolate hue of his face has been superceded by a red blotch of congected blood vessels. At his table we have learned how he paints his face. There there is an abundance of Jood. It is disgusting to an American to see him sufficiently and the padre and his food good company twice a day. The most home-like meals are our suppers, for there we have good American food and American food and American company.

This may carry with it the impression that our penting the padre with our venture.

and it made a complete cure. I nave been a perfectly well man ever since."

This may carry with it the impression that we are not pleused with our venture. This it is not intended to do. We could not be better situated than we are while in these islands. At Dagami, Tananan and Tarloban every one said that here there was much money. This we find to be true, the people of Baranen we find well-to-do is apt to become chronic. apt to become chronic. Send for our free book and write our physicians about your case. We make no harge for this service.
